Education

B.S. Computer Science | Dominican University of California *2021*
- Pursuing a Bachelor's in Computer Science with a concentration in Front End Web Engineering.
- Relevant coursework: Data Structures & Algorithms, Agile Development & RESTful MVC architecture.

Work Experience

Front-End Engineer Intern - Contentstack *May. 2021 - Aug. 2021*
- Optimized a web app (Google Lighthouse score) by implementing JavaScript and React best practices
- Custom developed a new web app to demo the Contentstack API, built in NextJS using Gulp for CSS.

Product Management Intern - Western Digital *Jun. 2020 - Aug. 2020*
- Planned features for two future generations of SanDisk SSD products with 1M+ active users
- Conducted internal research, defined strategy for product ID and marketability
- Researched competitor's UI in preparation for keystone digital products and services currently in beta
- Compiled market data, finding correlations between region and product-consumer compatibility

Computer Science Teaching Assistant - Make School *Aug. 2020 - Jan. 2021*
- Tutored classmates on CS principles such as big-O notation and scoping
- Coached 20+ students weekly on projects written in Flask, Django, ReactJS & Gatsby
- Showed students how to deploy projects to services like GHPages, Vercel & Netlify
- Assisted teacher in expanding curriculum for Front End Web courses

Marketing Intern - LawChamps *Apr. 2019 - Aug. 2019*
- Worked with B2B/B2C to build out digital campaign strategies, in addition to designing advertisements
- Designed mobile UX/UI for consumer app, collaborated with various teams during design weeks/sprints
- Trained and onboarded future interns in creative and design processes
- Developed new landing pages for both client and business-facing sites in WordPress (PHP)

Marketing & Social Media Intern - MCC East Bay *May. 2016 - Mar. 2017*
- Developed the center's website which generated $100k+ in donations over a 3 month period
- Started the center's YouTube channel which now has more than 5 million views
- Designed physical and digital advertisements for community programming
- Created and ran all social media accounts as well as campaigns (FB, Twitter, Instagram)
